

Clover B7B Room Temp and Cold Bottled Water Dispenser White

The Clover B7B room temperature (warm) and cold-water dispenser is perfect for serving refreshing chilled drinking water or regular temperature water. This high-quality water cooler is made of a one-piece UV-protected, high density polyethylene body. The double float valve with secondary safety float mechanism help reduce water loss from spilling. It has a hygienic stainless-steel tank to provide clean, delicious drinking water for your home or office.

Product Specifications

Model: B7B

Product Type: Room Temperature (Warm) and Cold Water Dispenser

Product Dimensions: L: 14.00" x W: 14.00" x H: 40.00"

Product Weight: 35.00 lbs.

Product Color: White

Application: Dispenses room temperature(warm) and cold water in your home or office

Warranty: 1-year limited manufacturer's warranty

Voltage: 110-120 volts

Frequency: 50-60 Hz

Certifications: CE, NSF, UL

Type: Bottled

Water Temperature: Room temperature(warm) & Cold

Compressor: Yes

Thermoelectric: No

Refrigerant Type: R-134a

Product Construction: Stainless Steel, Plastic

Cold Water Thermostat: Yes

Cold Water Thermostat Temperature Range: 35.6-53.6°F

Hot Water: NO

Faucet Type: Durable polypropylene, self closing spickets

Energy Star Rated: Yes

Drip Tray Type: Removable one piece ABS drip tray

Compatible Bottle Sizes: 5 gallons

Built-In Filtration System: No

Includes Bottle Cover: No

SKU: B7B

- **Stainless Steel Tanks:** The cold water tank is constructed of hygienic stainless steel which is specifically designed to be contaminant-resistant and protect your health
- **Temperature Adjustment:** Controlled by an adjustable thermostat, the cold water temperature can be set from around 35.6°F-53.6°F.
- **ENERGY STAR® Rated:** This water cooler has earned an Energy Star rating, which means it meets strict energy-efficiency guidelines set by the EPA and U.S. Department of Energy
- **Easy Clean-Up:** The Clover B7B water dispenser requires little maintenance, just remove the one piece ABS drip tray for occasional cleaning.
- **Efficient Cooling and Heating:** This room temperature (warm) and cold water cooler has an ultra-efficient condenser that's cooled via convection and operates quietly.
